MEMORANDUM

TO: All Retirement Systems

FROM: Jim Waldman

RE: Pooled Funds

DATE: October 7, 1998

In an effort to streamline accounting for pooled funds, we are changing the instructions to allow for journal entries for investment income and to separately record realized and unrealized gains and losses. These instructions are the same instructions that were introduced at the Northeast Secretary's meeting in May as well as at the June MACRS Conference. The new instructions are on page two of this memorandum.

For systems that are invested in the PRIT Fund and have not purchased individual segments, you will use ledger number 1199 for the core fund and ledger number 1198 for the PRIT Cash Fund. If you own individual segments of the PRIT Fund, you must use the ledger number that corresponds to the type of fund as indicated on page seven of this memo. Additionally, those that own individual segments will also have a PRIT Cash account which will be recorded in ledger number 1198. Transfers between the core fund, individual segments and the cash fund will be treated as a sale if the funds are transferred out of the account or a purchase if the funds are transferred into the account.

Enclosed is a partial list of pooled funds with the appropriate ledger numbers. If you want additional pooled funds added to this list, you can contact me and we will update this list on our website.

Attached you will also find examples of individual funds and the appropriate accounting instructions. If you need assistance from our audit staff with these instructions, please feel free to contact me at 617-666-4446, x925. If you find that you are having difficulty determining the proper entries, you may fax the pooled fund statements to me at 617-666-4414 and I will fax you back the correct entries that need to be made.
